3. On 16 September, two braced masts with a long-wire antenna were observed west of Ebreichsdorf Castle on the northeast side of the road to Baden (O 49/X 37). A wire led from the antenna to a nearby radio truck. The tent which had served as quarters on 22 June was replaced by a low wooden building. No traffic was observed. 25X1

Comment. Except for the colonel who is commanding officer of a signal unit, all other observations at Ebereichsdorf mentioned in paragraphs 1 and 2 have been repeatedly reported. The present report and previous information on officers and soldiers wearing black-bordered black epaulets, some with signal insignia, and the information on the colonel in paragraph 1 lead to the assumption that a signal unit or elements of a signal unit must be stationed at Ebereichsdorf. The troops probably belong to the [] regiment of the Central Group of Forces

the regiment is possibly identical with the 29th Indepⁿ Stettin = Order of the Red Starⁿ Red Regt on special assignment.
